

Dear BlackBerry owner,

Instructions of **SlovoEd Dictionary** installation to your device are illustrated step-by-step bellow:

- 1) First of all you should choose **Options->About** on your **BlackBerry** and find BlackBerry Handheld Software version:

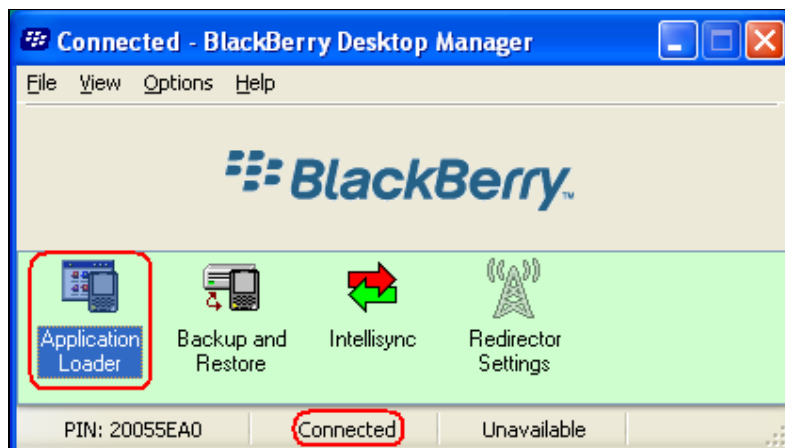

- 2) If your BlackBerry Handheld Software version is equal or greater than 3.8 you should save files
* midp20_slovoed.alx
* midp20_slovoed.cod
to any temporary folder.

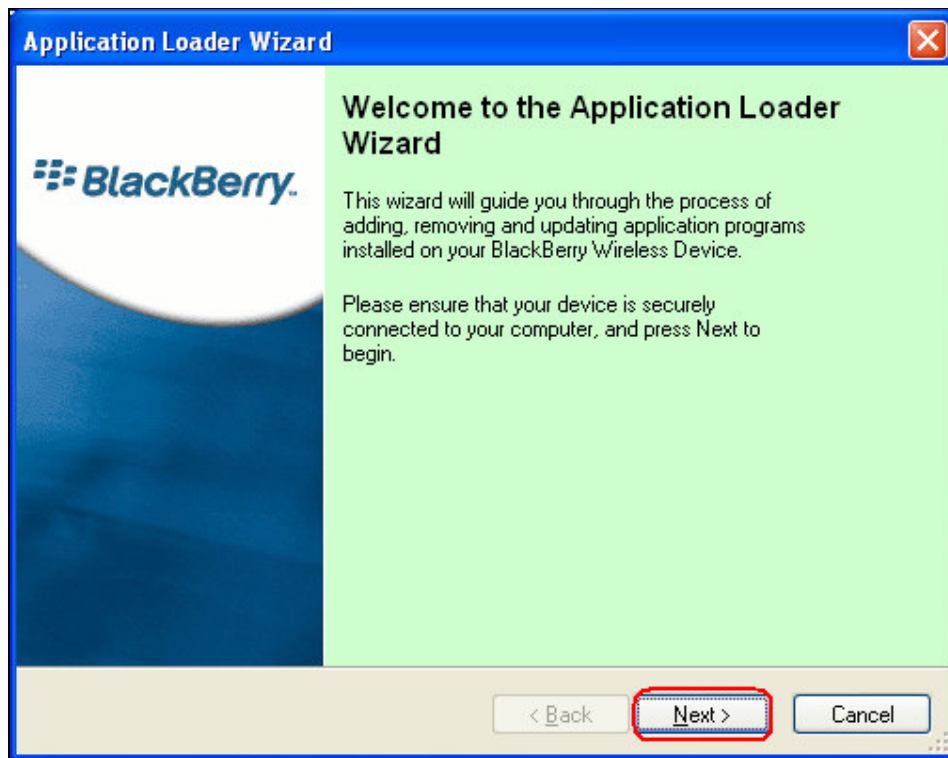

If your BlackBerry Handheld Software version is earlier than 3.8 you should save files

- * midp10_slovoed.alx
 - * midp10_slovoed.cod
- to any temporary folder.

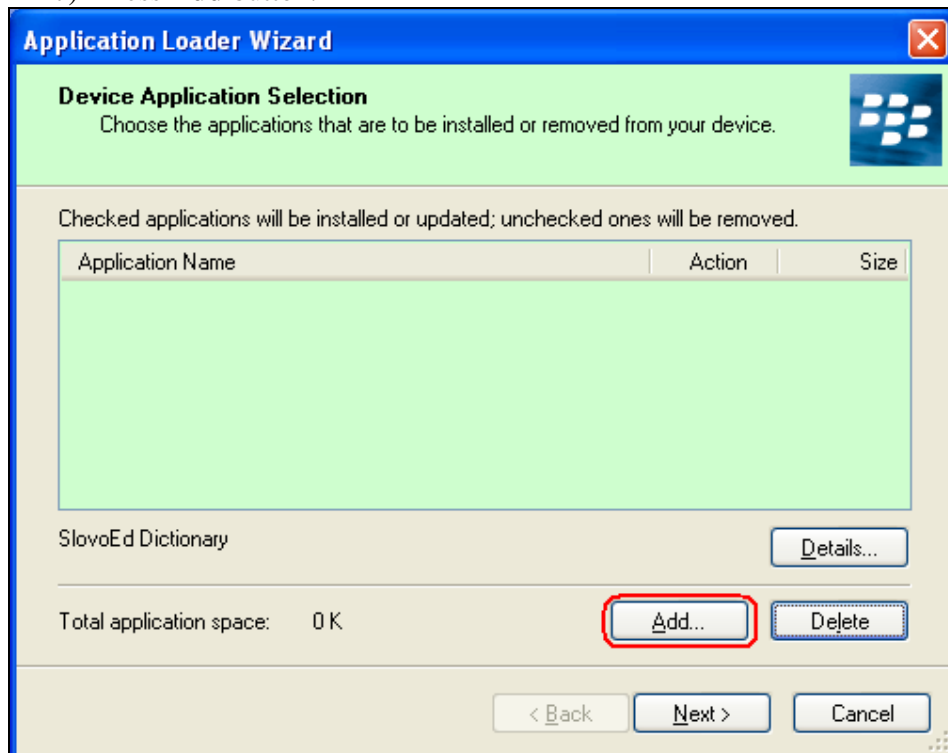

- 3) Launch the **BlackBerry** desktop manager.
- 4) Make sure the device is connected to the computer and turned on.
- 5) In the desktop manager window launch the **Application Loader**.

- 6) Press **Next**:

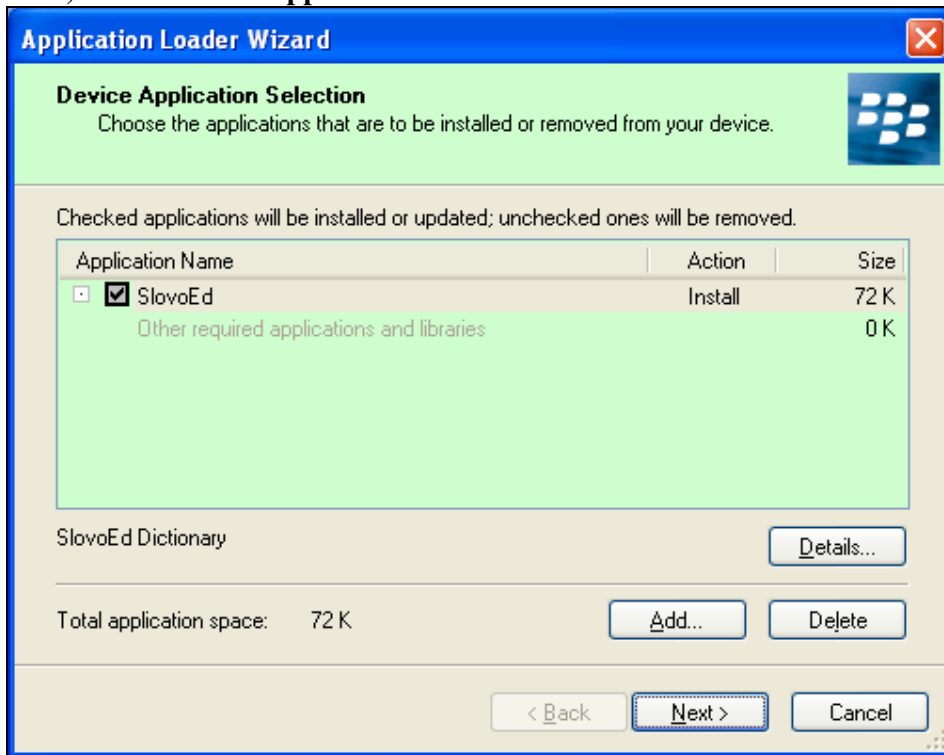

7) Press **Add** button:

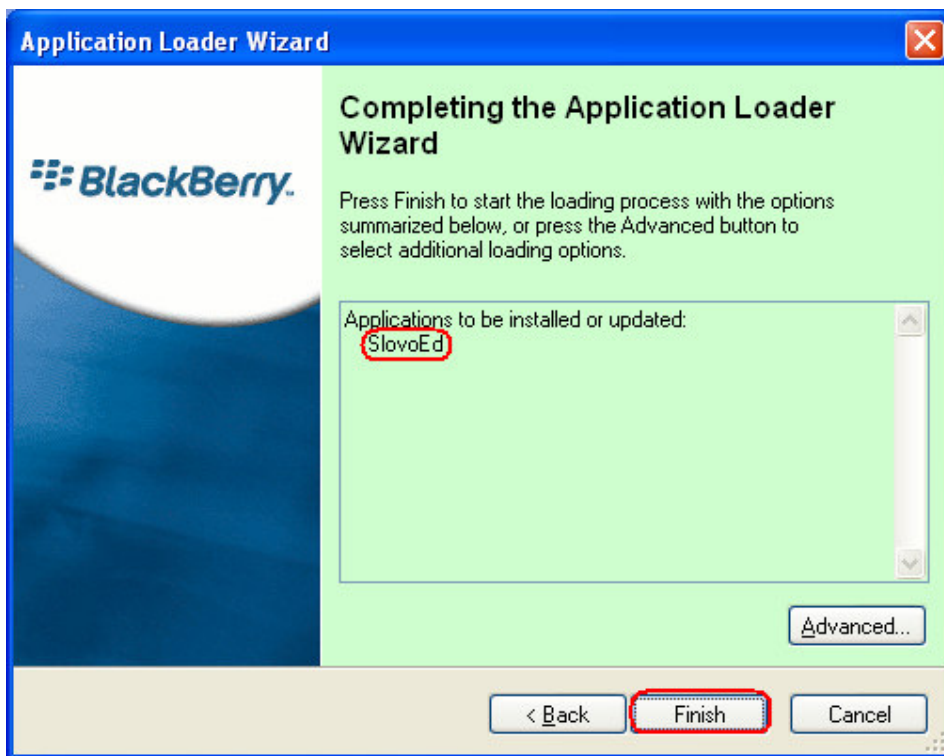

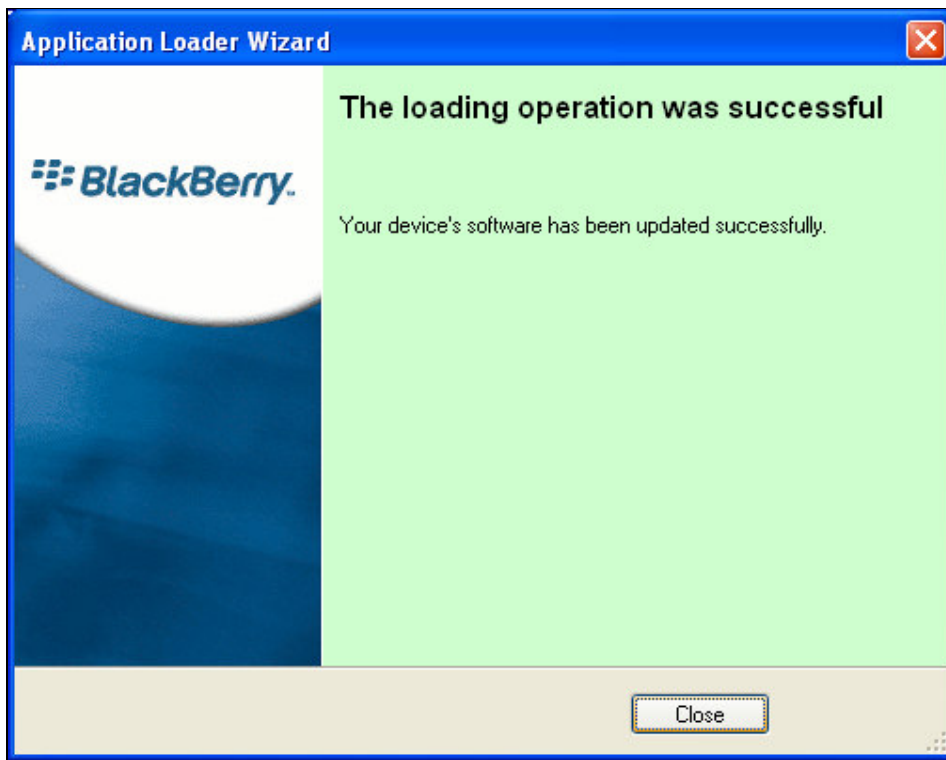

8) Choose the *.alx file that you have saved to temporary folder.

9) After that the **Application Loader Wizard** window should look like this:

7) Press **Next** then press **Finish**.

8) Find **SlovoEd** icon on your **BlackBerry** and launch it:
